Dear Parents,

Your child will soon be participating in school swimming lessons at the TransAlta Tri Leisure Centre. The following contains some important information about the upcoming 2011/2012 school year.

The Red Cross offers a program for schools called **Swim@School**. This program is designed for students to have an opportunity for fitness in the pool setting with a focus on improving swimming and water safety skills. Swim@School covers basic swimming skills, fitness, safety skills and strokes.

Although the students will not be broken up into specific Swim Kids levels during Swim@School, it is still important for us to know what level your child was previously in so we can divide the participants up based on their ability. All participants will be taught and challenged to the best of their ability.

At the end of the session all participants will receive a certificate that will show what has been completed in the session. The instructor will also fill out the recommended Red Cross Swimming Level on the certificate so you will know where to register your child for future lessons.

This program is designed to allow everyone to participate in swimming despite the range of levels of swimming ability and still encourages students to achieve their own personal best. This program is to supplement a regular Red Cross swim lesson and is closer to an overview and skill improvement and should not be considered the same as the Swim Kids program.

The TransAlta Tri Leisure Centre is proud to offer the Red Cross Swim@School program to the schools in and around our community.

I encourage all parents, if available, to come down and watch the lessons. If you have any questions or comments, please call the pool and talk to myself, or your child's instructor. Communication is important to us, so don't hesitate to call.

We look forward to seeing your 'little fishes' at the pool!

Sincerely,
